

Welcome To Our Online Course!

Before you get started, we wanted to ensure you are best prepared to get the most out of our courses!

Questions & Answers:

All of our courses have a Questions & Answers section, where students can engage with the instructor and directly ask questions. We check our messages and questions daily, so feel free to reach out to us with any questions you have! Our goal is for our students to leave our courses with new skills and knowledge that they can use to better their lives, so we've worked hard to create a 5 star experience for you!

If you think this course isn't a 5-star course, we encourage you to reach out to us with any questions you have! We'll try to answer any questions you have for added value!

Also, Udemy sometimes prompts students to leave a rating very early into the course learning experience; if you feel it's too early to leave a ratings, simply ignore it until a later time!

Udemy Video Player Controls:

Udemy's video player includes several control buttons to allow you to set the speed that you want the video to play at! If you find the instructor teaching too quickly, simply speed up the speed.

You can also skip forward or backward in 15 second intervals at any time you'd like, in whichever lesson you'd like, as well as skip the entire lesson, Udemy offers a button for this at the bottom of every lesson.

Certificate Of Completion:

Udemy provides a certificate of completion if 100% of the course is watched. If you did not receive a certificate of completion, please look back to see if you have watched 100% of the course. (*Skipping a lesson may result in a certificate of completion not being provided.*) Udemy handles all of the certificates of completion (Not the instructor), so please reach out to them directly from their contact page, if you have any issues.

Course Resources:

Some lessons may include downloadable content such as .pdf resources, so keep an eye out for those!

We have several dozen other courses! Check them out here:
